BESPOKE GRC FINISHES
HERITAGE SKILLS
MODERN DELIVERY

Traditional architectural detailing no longer needs to mean traditional programme constraints.

McCormick Construction Consultancy combines heritage craftsmanship with advanced offsite GRC manufacture to recreate intricate classical and bespoke architectural finishes with greater speed, consistency and programme certainty.

From concept engineering through manufacture, logistics and on-site installation, we deliver heritage outcomes through modern methods.

UNIVERSITY NORTH OXFORD

BESPOKE GRC. HERITAGE SKILLS.

We specialise in the design, manufacture and installation of bespoke GRC (Glassfibre Reinforced Concrete) elements, crafted to replicate traditional materials with outstanding authenticity. Using modern methods of construction, we manufacture offsite for precision and quality, then assemble onsite for speed and efficiency. Delivering consistently beautiful architecture on time, within budget and built to last.
